

NORTHUMBERLAND HEATH PRIMARY SCHOOL

“And now we welcome the new year. Full of things that have never been.”
- Rainer Maria Rilke

Dear Parents/Carers,

Welcome back and happy new year to you all. It has been wonderful to see our children and families returning after the Christmas break, and we hope you all enjoyed a restful and enjoyable holiday. The children have settled back into school life beautifully and it has been lovely to see them reconnect with friends and staff.

On Monday, Ms Indresano led assemblies across the school to mark the start of the new year. The children were encouraged to reflect on the year just gone and think carefully about new goals for the year ahead. The focus was on personal growth, resilience and making positive choices, with children discussing how small, achievable steps can help them work towards their ambitions both in and out of school.

The colder weather has certainly made itself felt this week. Please continue to ensure children come to school dressed warmly, with coats, hats, scarves and gloves as needed, especially for outdoor playtimes. This helps everyone stay comfortable and ready to learn throughout the day.

Our value for this term is individuality. Over the coming weeks, children will be exploring what it means to be themselves, celebrating differences and understanding that everyone has unique strengths, interests and qualities. Through assemblies and classroom learning, we will be encouraging children to show respect for others and confidence in who they are.

Year 6 had an exciting trip to St Paul's Cathedral in London this week. The visit linked closely to their learning and gave the children the opportunity to explore this iconic landmark, learn about its history and architecture, and reflect on its significance. The children were fascinated by what they saw and represented the school extremely well throughout the visit.

Year 4 also enjoyed a memorable trip to a Hindu temple as part of their learning this term. They learned about Hindu beliefs, traditions and places of worship, and were able to ask thoughtful questions to deepen their understanding. It was a valuable experience that supported their learning about different cultures and religions. Across the school, all classes took part in their Big Bang days to launch their new topics for the term. There was a real buzz of excitement in classrooms as children explored new ideas, asked questions and became curious about what they will be learning over the coming weeks. It has been fantastic to see such enthusiasm for learning right from the start of term.

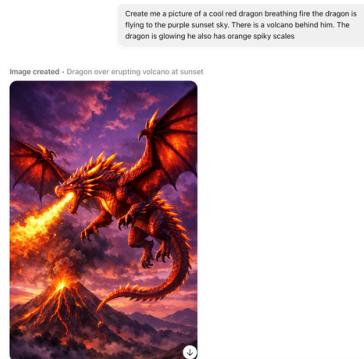

Wishing you all a lovely weekend, and we look forward to seeing everyone back in school on Monday.

Ms Indresano and the NHP Team!

*Early
Years*

In Year 1 this week we learnt to identify and name 3D shapes in maths by making models out of play dough. We discovered the easiest shape to make was a sphere and the hardest was a pyramid!

Nursery celebrated Big Bang Day by dressing up as their favourite nursery rhyme character. The children enjoyed singing nursery rhymes, taking part in playful activities, and using their imagination to bring their characters to life. It was a fun day full of laughter, learning, and creativity.

*Year
One*
*Year
Two*

This week, Year 2 have been learning about AI and its uses. Together as a class, Elm class came up with a prompt and generated an awesome picture! We edited details afterwards until we were happy with the result. We then created different prompts to use!

In Year 3, we have begun our learning about natural disasters. In DT, we made volcanoes which we will be decorating as soon as the glue dries! Look out for eruptions later this term.

*Year
Three*
*Year
Four*

As part of Year 4 Big Bang Day, the children in Spruce class enjoyed a sensory tea-tasting experience linked to our core text The Cloud Tea Monkeys. They sampled different teas and used their senses to describe how each one looked, smelt and tasted, helping them connect closely to the story of a girl who picks tea.

*Year
Five*

This week, Year 5 have been starting their new topic "A Giant Leap for Mankind?". They were researching dates of specific events to create a timeline as a small group.

In Year 6, we went on an exciting RE trip to St Paul's Cathedral to see all the beautiful mosaics and artwork. We created our own mosaics, had a guided tour & climbed up the galleries.

*Year
Six*

ATTENDANCE

Take a look at this week's attendance. Please remember to inform us if your child is absent by calling 01322 334638 and speaking to the school office.

Alternatively you can email

Safeguarding

A Guide for Responsible Image Sharing: Tips for Parents and Children

If your child enjoys playing online games, they may be at risk of receiving inappropriate content or being pressured to send revealing images of themselves.

It's crucial for young people to understand that they should never feel obliged to send inappropriate images, and they should know what steps to take if they receive such content. It's also important to be aware of the laws surrounding image sharing. Here are some key points to bear in mind:

Sending intimate images is illegal for anyone under the age of 18, and it's never acceptable for someone, whether they are an adult or a child, to send or request such images.

Talk to your child about what they should do if they receive inappropriate content. Remind them that they should come to you immediately if this happens. If your child has been a victim of inappropriate image sharing, take swift action. Keep evidence by taking screenshots, and contact the police.

Make sure your child understands that it's never appropriate to send revealing images of themselves, and if someone asks them to do so they should inform an adult right away.
